

WELCOME TO COCKPIT CRAFT DISTILLERY

FLIGHT PLAN

We are proud to be
veteran owned and
100% Grain & Cane to glass

Our Spirits

P-51 Mustang Bourbon Whiskey

Our six-grain bourbon is distilled from only the finest grains we can source including a special blend of Corn, German rye, winter wheat, English caramel malt, chocolate malt, and other specialty malts. We then it is aged in virgin white American oak barrels to give this whiskey a truly unique flavor profile with a smooth finish.

FG-1D Silver Rum

We use only the best blackstrap molasses and all natural evaporated cane juice that is non-GMO verified and naturally gluten free. This white rum is filtered after distillation for a very smooth finish. Many have compared our rum to a top shelf Tequila with notes of maple and agave undertones.

FG-1D Sweet Tea Rum

We start off with our Silver Rum then instead of cutting it to proof with water we cut it to proof with a cane-sweetened sweet tea we brew in house (made simply from an all organic award winning black tea, evaporated cane juice and water)

P-38 Lightning Apple Pie

We take our clear shine distilled from cane and grain and then cut it with Colorado apple cider spiced with allspice, cloves, and cinnamon, and then we put a whole vanilla bean and a cinnamon stick in every bottle. Careful it's dangerously delicious!!!

P-38 Lightning Clear Shine

Our take on moonshine is essentially an old sweet feed recipe. We take locally grown corn, and two-row malt from a family farm in Burlington, molasses, and evaporated cane juice to distill into our super smooth Moonshine

SOC-4 Banana Booze

One batch is comprised of 1400 lbs. of painstakingly hand-peeled bananas (it takes three guys eight hours to peel) and evaporated cane juice. Then it is fermented, distilled through our custom built column still, then we back sweeten it with some more evaporated cane juice for a flavor we think tastes like bananas foster. Enjoy!!!
